[Portfolio](#) [Linkedin](#) [GitHub](#)

I'm a highly motivated problem-solving technical artist seeking a role as a Junior Front End Developer. Eager to learn and grow, I'm excited by challenges and creating.

Skills

Front-End

Javascript ES6
HTML5

CSS3 / SASS
Webpack

Frameworks, Libraries & Tools

React/Redux
Material UI

Github
Firebase

Projects

My Movie List

[Live Link](#) | [GitHub](#) | *Reactjs, Redux, Javascript, HTML5, Firebase, Material UI, Responsive web design*

- Inspired by my interest in films, this application allows users to create a list of movies to watch and rate.
- Pulls images and data from the 'The Movie Database API'.
- Firebase used for user authentication, database and storage.
- Built with a focus to use best practices some of the latest additions to React, such as React Hooks.

Battleship

[Live Link](#) | [GitHub](#) | *Javascript, HTML5, SASS, Webpack, Responsive web design*

- Play the famous board game against the computer AI.
- Built with the focus to practice Object-Oriented Programming and testing using Test Driven Development with Jest.
- Smart AI that tries adjacent slots after getting a 'hit'.

Weather City App

[Live Link](#) | [GitHub](#) | *Reactjs, Redux, Javascript, HTML5, CSS3, Responsive web design*

- Users can search for a city name and if matched, will display current weather.
- Uses OpenWeatherMap RESTful API to fetch weather data

Professional Experience

VFX Supervisor / Lead Compositor, Dupe VFX, London

Jul 2019 - Present

Key Responsibilities:

- Displayed strong attention to detail by being responsible for the technical and artistic quality of shots
- Supervised up to 20 employees
- Demonstrated strong communication skills by giving feedback on work which has led to the consistent delivery of a high-quality output
- Helped develop the 2D and 3D pipeline with the IT department which improved efficiency and increased profits for the company by 5-10%
- Identified additional tools and developed solutions whilst collaborating with technical artists to improve processes

Compositor, One of Us, London.

May 2017 - Jul 2018
